Wilson Calls Hurried Conference With Garrison and Mines Committee-Investigating Congressmen May Go to Scene.

CANON CITY IS SCENE OF FIERCE BATTLE

5,000 Men and Women Denounce Ammons as Instigator of the Murder of Babies in the Mine District.

President Wilson after receiving the request of Gov. Ammons of Colorado lecided to order Federal troops to the mine district to-day.

A committee from the House of Representatives, it is reported, will be ent to Colorado to investigate. It is rumored in Washington that the investigation will include the charge that the mine owners have put their guards in militia uniforms and in this guise have shot down women and children.

Five thousand men and women gathered in front of the Capitol at Denver and demanded the impeachment of Gov. Ammons by the Legislature, charging him with the instigation of child murder at the mines.

The town of Canon City, near the Chandler mine, is reported to be in an uproar. Fighting went on all day Sunday, but, according to Warden Tynan of the penitentiary there, only one man was killed.

lution says:

WASHINGTON, April 26 .- Federal troops Tynan of the State penitentiary telewill be ordered to the Colorado strike known to be dead at the Coandier mine district to-morrow. The President will after an all day battle. Miners capact in accordance with a request tele- tured by the strikers are being taken graphed from Gov. Ammons of Colorado into Canon City. to-day and scores of others which have River bridges to prevent an invasion of poured into the White House from per- Canon City. Strikers are in absolute sons familiar with the atrocitles alleged control of the town. to have been committed there by the There are 1,000 men engaged in this battle. The mine guards have one ma-

militia.

The request for Federal troops was considered by the President at a conference in the White House to-day with Senator Thomas, Secretary of Labor Wilson, and Chairman Forster of the House Committee on Mines and Mining. At this conference the President learned for the first time of heartrending occurrences at the mines in the last few days.

Information was laid before the President troops was laid troops was laid before the President troops was laid to the president troops was laid before the President troops was laid before the President troops was laid before the President troops was laid to the

Information was laid before the President that many children, some even a few months old, and women about to become nothers had been shot down by the militia in the volleys from their machine guns, which swept across the minage of the southern coal strike district.

At the conclusion of the speechmaking the mass meeting adopted resolutions condemning Gov. E. M. Ammons as an accessory to the murder of babies as an accessory to the murder of babies and demanding his impeachment at a special session of the Legislature which state troops are not State troops at all, but mine guards who have been put into uniforms at the request of the mine owners. They plead for relief by putting the police work in charge of Federal While this meeting was being held pledged to have him recalled.

committee to Trinidad. The committee was about to close its hearings and prepare a report for the House.

The frightful situation in the strike region depicted in advices now coming to Washington may impel the con mittee to broaden its inquiry so as to include the charges that mine guards have been put in militie sufferms and in the strike. put in militia uniforms and in this guise have but hered strikers and their wives and children In fact, it was said that Chairman Foster of the Mines Committee Foster could not be found to-night, and the assumption was that he and other members of the committee had started for Colorado.

Washington, April 26.—Proposals for national legislation to wipe out chronic conditions in the country's labor market

ONE DEAD IN ALL DAY FIGHT.

Canon City, Centre of Disturbance,

clearing house for each of several dis-tricts into which the country would be divided. The bureau would have power to establish and conduct free public em-ployment offices.

The National Bureau would have juris-diction over all private employment

ployment offices.

The National Bureau would have furisdiction over all private employment offices doing an interstate business or accepting workmen for shipment to other States. State, municipal and private employment offices would be urged to cooperate with the national bureau and to adopt uniform methods and regulations.

The bureau's most important service would be to gather and distribute accurate information regarding the labor market in various localities. This information would be published in the form of bulletins to be issued in English and other languages at frequent intervals and to be classed in such a way that they would be available to every person in search of work and every employer seeking workmen.

One interesting feature of the plan is the proposal for the appointment of an advisory council for the national bureau and for each of the district clearing houses. It would be composed of an equal number of representatives of employers and of employees and would assist the director in all matters pertaining to the management, would aid in determining policies and would see that the bureau was impartial in disputes between labor and capital, thus gaining for it the confidence of the whole public. The district advisory councils would be appointed by the Secretary of Labor.

Every employment office conducted by the bureau would be required to send a daily report of business to the clearing house of the district in which it was situated. Every private employment agency would be required to make a weekly re-

nouse or the district in which it was sit-uated. Every private employment agency would be required to make a weekly re-port to the district office. Every State and municipal employment office would be requested or induced to make daily

reports.

The proposals include rules and regulations to be enacted into law prohibiting false representations, requiring notice of strikes, prohibiting fees before service is rendered and otherwise safeguarding the patron of the employment office against exploitation.

testify before the commission at the series of public hearings that begin May of public hearings that begin May 4 in New York and that will include hearings at many large industrial centres. Since the new tariff reduced the duty on woolen cloth from what virtually amounted to 100% to 35% ad valorem, a good many folks have been more or less at sea as to just how those savings would accrue to their benefit.

Would the price of good clothing go down?

Or would the price remain the same and the quality go Or would all the savings be

absorbed by the "middleman"? Here we work direct-no 'middleman"; do all our own

ever before. So, as we hoped, being both manufacturers and retailers, the benefit does go direct to our customers.

The actual saving in dollars and cents comes off the price of our clothes. Why not?

Our business has been built up on the basis of adding only a normal percentage of profit to the actual cost of material and making, so naturally when the cost of material goes down so does the cost to the ultimate consumer.

Customers familiar with our fabrics and values, particularly staple lines, will find a saving anywhere from \$2 to \$5 on practically all our suits and overcoats of imported woolens. This roughly is the difference the tariff made labor cost is of course unchanged.
